2nd Annual STEAM Festival

2nd Annual STEAM Festival - Saturday July 16, 10:00 - 4:00 PM - Potrero Hill Neighborhood House

This is a local neighborhood outdoor event that feels like a mini-Bay Area Science Festival with exciting STEM/STEAM fun activities that are designed to inspire young people to become future STEM leaders. Azelea helped staff the AAUW-SF table at the event. Let's hear what she has to say!

Unfortunately, we were unsuccessful at recruiting new members to join our branch. However, I noticed that multiple people expressed interest in the camp. These people continued to ask me questions about my experience at the Marie Curie camp in 2019 and asked for flyers because they wanted to spread the word with family members or friends who had daughters in 7th grade. I also think the butterfly ring activity was a great addition to our table because although it did not bring new members, it attracted children and their parents to our table, gaining more publicity and recognition for AAUW.

-Azelea Artiga (TTAG member)

CONTACT US

It's our goal to bring you workshops, camps, extra-curricular activities, internships, and other exciting opportunities in STEM. Please do not hesitate to contact us if you would like to share with your TTAG community any cool STEM Ed event taking place at your high school. Want to share info and opportunities or give us feedback?
