

TTAG Newsletter - October 2021

The AAUW-SF TTAG Newsletter is here! It's our goal to bring you workshops, camps, extra-curricular activities, internships, and other exciting opportunities in STEM. As in-person school learning resumes, please do not hesitate to contact us if you would like to share with your TTAG community any cool STEM Ed event taking place at your high school.

Announcements!

-

TECH TREK 2022

Do you know you can become a Tech Trek counselor?

You can also help us interview Tech Trek candidates. Right now, we do not know whether Tech Trek will be an “in-person/on-campus” or “virtual” camp next year. More info in January 2022.

- **Website:** techtrek@aauw-ca.org
-

Girls Who Code

- **When:** 2021-2022 School Year
- **Where:** At your school!
- **What:** If you're interested in coding, you can join the Girls Who Code club at your school or start one using the link below!
- **Website:** <https://girlswhocode.com/programs/clubs-program>

TTAG MEMBERSHIP

As a Tech Trek Alumna, consider becoming a member of the Tech Trek Alumnae Group (TTAG; pronounced *TeeTAG*) of the San Francisco Branch of the American Association of University Women (AAUW-SF).

TTAG Membership will not only provide you with a community of like-minded girls interested in STEM, but also with access to college readiness workshops, STEM career panels, and a newsletter with opportunities and events tailored to TTAG's goals and interests. Finally, TTAG members will be eligible to apply for the TTAG Scholarship offering up to \$16,000 over 4 years to support college related expenses. More info and application form to come.

To Join TTAG or Renew your TTAG membership, please fill in [this survey](#).

MEET our TTAG

Curious to know who is part of our TTAG?

This month, let's meet Julie and Lexian who have joined the TTAG Communication Team for 2021-2022!

Julie is a sophomore at City Art and Tech High School and **Lexian** is a Junior at Lowell High School. They attended Tech Trek in the summer of 2019 and 2018.

Julie is busy attending an in-person Hispanic Heritage Club this year at her high school, and she is interested in computer science and coding. Lexian participates in an array of clubs and activities at Lowell, including Girls Who Code, Bioengineering, Music for the Elderly and Tutoring with the California Scholarship Foundation. Lexian is interested in biology, chemistry and computer science.

We are looking forward to an exciting year together!

Lexian and Julie (with the parrot)
